-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 3652

1. The following is a quotation of the second paragraph of 35 U.S.C. § 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which applicant regards as his invention.

2. Claims 1-6 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. For example:

- a. It is unclear as to how the applicant is considering the winches as inside of rear portions of the support frames (2a) which support the boom. The winches are in the rear frames (2g).

- b. The last three lines of claim 1 recite that the openings are formed by cutting. However as these are apparatus type claims, they should not rely on their method of being made for patentability, as the claim literally reads. Apparatus claims limitation should specify the structure resulting from the construction, not the method of construction.

- c. In claim 4, it is unclear as to how the applicant is limiting the claimed invention by having the winches disposed vertically. As the winches are three dimensional objects, they must extend vertically regardless of the orientation of their drums or other elements. Similarly, the use of the term "longitudinally" in claim 5 is confusing.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3, 5, and 6, as best understood, are rejected under 35 U.S.C. § 102(b) as being anticipated by Pech et al.

5. Claims 1, 4, and 6, as best understood, are rejected under 35 U.S.C. § 102(b) as being anticipated by Schrick et al.

6. Claims 1 and 4-6, as best understood, are rejected under 35 U.S.C. § 102(b) as being anticipated by Goodwine.

7. Claims 1, 2, 4, and 6, as best understood, are rejected under 35 U.S.C. § 102(b) as being anticipated by JP 2000-289984.

8. Crawford et al, Harrison et al, and the three Japanese references are cited as showing winches mounted to

boom supporting frames.
